

**Project No. 271**

The Contractor's compliance with the Executive Order and the Regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required by the specifications set forth in 41 CFR 60-4.3(a), and its efforts to meet the goals. The hours of minority and female employment and training must be substantially uniform throughout the length of the contract, and in each trade, and the contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from Contractor to Contractor or from project to project for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, the Executive Order and regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.

The Contractor shall provide written notification to the Director of the Office of Federal Contract Compliance Programs, 200 N. High Street, Room 640, Columbus, Ohio 43215, within 10 working days of award of any construction subcontract in excess of \$10,000 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the name, address and telephone number of the subcontractor, employer identification number of the subcontractor, estimated dollar amount of the subcontract, estimated starting and completion dates of the subcontract and the geographical area in which the subcontract is to be performed.

**Safety -**

Section 107.01 of the Specifications requires, among other things, compliance with Chapter 4121:1-3 of the Ohio Administrative Code entitled "Specific Safety Requirements of The Industrial Commission of Ohio relating to Construction," effective November 1, 1979, and with the "Federal Occupational Safety and Health Act of 1970 and Code of Federal Regulations, Title 29, Chapter XVII, Part 1926."

**Environmental Pollution--**

The bidder's special attention is called to the fact that Section 107.01 of the Specifications includes but is not limited to the rules and regulations of the Ohio Environmental Protection Agency located at 361 East Broad Street, Columbus, Ohio (614-644-8291): (See "OPEN BURNING GUIDELINES FOR ODOT CONTRACTORS," dated December 19, 1983.)

**LOAD LIMIT DETERMINATIONS and  
LIQUIDATED DAMAGES FOR LOAD LIMIT VIOLATIONS**

By signing this bid, the bidder stipulates as follows:

- I. The weight limitations for any vehicle being used to haul materials under the terms of this contract, or any subcontract, shall be the maximum weight limitations contained in Ohio Revised Code Section 5577.04 and the ODOT Construction & Material Specifications.
- II. In administering the terms of this contract, only the maximum allowable gross vehicle weight (GVW) under ORC 5577.04 will be monitored by the Department, and that will be for the sole purpose of assessing liquidated damages as defined herein. The maximum allowable wheel load and the maximum allowable axle load under ORC 5577.04 will not be monitored by this Department under the terms of this contract. However, the fact that only the GVW will be monitored by this Department does not relieve the driver of any vehicle being used to haul materials under the terms of this contract from conforming to all provisions of the Ohio Revised Code pertaining to vehicle weight as interpreted and enforced by law enforcement agencies within Ohio.
- III. Every vehicle hauling materials under the terms of this contract must carry the original written statement titled "Determination of the Maximum Legal Gross Vehicle Weight (GVW) Under O.R.C. 5577.04". Again, the Determination must be the original issued by an ODOT District Office. A "Determination of the Maximum Legal Gross Vehicle Weight Under O.R.C. 5577.04" issued by any one of the twelve District Offices is valid for the entire state. This statement must be presented upon demand. Vehicle gross weights in excess of that stated on the "Determination" will result in the assessment of liquidated damages as specified in paragraph IV.
- IV. Schedule of Liquidated Damages for Vehicle Weights in excess of the maximum allowable GVW as determined by the Department:

<b>Overload (lbs)</b>	<b>Liquidated Damages</b>
0,000 - 1,000	\$ 0.00
