Solomon Dozer

It is mutually understood and agreed by and between the parties to the above stated action and the matters in controversy therein are to be settled and compromised upon the conditions following, to wit: A Survey of the lands purchased by said Dozer from Jno Henderson & Jno. Miller is to be made by a surveyor to be agreed upon by said parties and one hundred and seventy five acres are to be surveyed to said Dozer, and in making said survey the line on the North known as the Finley line, and low water mark of the Muskingum River on the East, as shown by the survey of Joseph Fisher, Sen, in the partition case of the Robert Henderson heirs, and the line between said Dozer and Mary A. Dutro on the West are to be taken as correct and the Southern line is to correspond in courses and distances with the Joseph Fisher, Jr line heretofore surveyed from which the deed from said Henderson & Miller to Dozer was made except that said Southern line is to vary from West to East so as to secure feet greater width at the River than said Fisher's said surveyed line, and far enough South to make said 175 acres,

Each party to pay his own costs in said suit and the costs of said survey to be made are to be borne equally by said parties.

When said Southern line has been established as herein provided, the partition fence between said Patterson and Dozer shall be placed thereon and Quit-Claim Deeds shall be executed by and between said parties for any lands now in dispute and made necessary by reason of said survey.

Each party shall put his own part of the partition fence on his own land.
